### Expected Profit Rate Definition

The profit we share with you is the 'expected profit rate' we offer at the time you open your account. We monitor your account on a daily basis to ensure the expected profit rate will be achieved. If we believe the expected profit rate will not be achieved, we will contact you giving you notice of the new expected profit rate. You will then have the option to continue your account with us at the new rate, or close your account immediately with your original deposit returned, along with profit earned. To date, Gatehouse Bank has always managed to pay its customers the expected profit rate.
