

Gatehouse Bank

Streamlined Energy and Carbon Reporting (SECR) Report 2022

Streamlined Energy and Carbon Reporting (SECR) Report

Gatehouse Bank, 2022

Summary

The Bank's report on all emission sources for 2022 is set out below. In compiling this information, Gatehouse Bank has used Streamlined Energy and Carbon Reporting (SECR). Greenhouse gas emissions are reported as a single total by converting them to the equivalent amount of carbon dioxide using the emission factor from the SECR conversion factor 2022.

Gatehouse Bank and Ascend Limited

Energy source	tCO ₂ e
Scope 1 - Direct emissions from combustion of fuel	91.45
Scope 2 - indirect emissions from electricity purchased	64.95
Scope 3 - Business travel only	87.62
Scope 1+2+3	244.03
Environmental intensity indicator (tonnes of carbon dioxide per £1m gross income)	4.3

Disclosures for the financial year ending 31st December 2022.

Through our partner Carbon Neutral Britain™, we have offset 245tCO₂e for the year 2022 through the Climate Fund™ Portfolio of verified carbon offsetting projects around the world, which are selected based on their direct and indirect global impact. These projects have been certified to the highest standards via the Verra – Verified Carbon Standard, the Gold Standard – Voluntary Emissions Reductions (VER), or the United Nations – Certified Emission Reductions (CERs) programmes.
